

MONDO FLORAL DESIGNS AT
SPICERS CLOVELLY ESTATE

Luxury creative floral workshop

30TH MAY 2020

Workshop Outline

DESIGNER'S INSIGHT

To begin the morning, we will touch on professional design techniques and walk you through a large scale hanging installation.

A passionate educator and experienced and award-winning floral designer, Terrienne alongside her team will touch on their unique professional ability to transform a space from above and provide an insight into a designer's creative mind.

A wonderful and exclusive opportunity to watch the professionals at work and absorb a few tips from the experts regarding event floral design and professional creative concepts. The larger scale installation will then become an accessory for the day and hang from above, while you each take part in two individual workshops to follow, with beautiful flowers cascading from the ceiling, and a bloom beginning to frame you while you embrace your creative energy.

Workshop Outline

CONTEMPORARY VASE DESIGN TUITION

Do you purchase flowers regularly for home, or do you have an inspiring garden that blooms and you love to harvest your bloom bounty and share the floral goodness inside your space?

Have you ever wondered how to get those flowers to sit perfectly in your vase, how to create a shape that flows beautifully within the vessel, and accent your interior?

This workshop explains care of flowers, what's important to get those blooms to last longer, how to design, style and shape a design to suit your space and your vase!

The demonstration touches on the basics of vessel selection, choosing floral and greenery, flower preparation, foraging, and design techniques. All participants will then get to create their own floral masterpiece!

Included – vase, materials, flowers and foliages.

Workshop Outline

FLORAL EVENT STYLE

Are you an entertainer? I think everyone will agree that a beautifully styled dinner table includes a floral design, it's an absolute must! Or do you find yourself offering your creative services to friends, for celebrations and events, but would love to have a better understanding of floral design?

Our demonstration discusses the building blocks of design principles such as colour theory, balance, layering and textiles, and how to create a cohesive feel to your tablescape in a couple of easy steps.

Following discussion, we will have a full floral demonstration and then you will build your own floral centrepiece to match your chosen design brief.

Included – modern vessel, materials, flowers and foliage.

Workshop Outline

Q & A SESSION

An opportunity to ask me anything about flowers, a fun relaxed finish to a creatively stimulated day of learning.

Positions for this all-inclusive luxury creative retreat are limited. You don't need to have any experience to take part in our workshop, each individual attendee will have the opportunity to express their own creative style through flowers in a uniquely supported and inclusive way.

'I am excited to offer this innovative and exciting workshop at Spicers Clovelly Estate, one of my favourite places to be. Flowers are an integral part of my being, they provide tranquillity, serenity and harmony to a space, so I couldn't imagine any other location better suited to hold this creative gathering. It will be a privilege to meet you, and to educate, inspire and share my knowledge of beautiful blooms to other flower lovers! As the masterful French impressionist painter Claude Monet said 'I must have flowers.... always and always.'

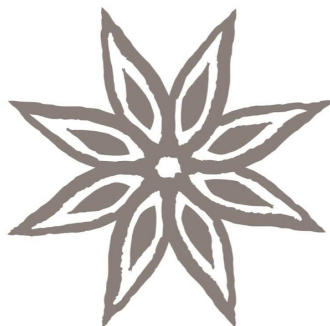

Come and join me.
