Every bride has their own style, and we love to help you indulge in breathtaking blooms, that's one of the most exciting parts of our job, meeting with clients, hearing your stories, finding out what inspires you.

We guide you, advise you, share our knowledge and experience with you, immerse ourselves in your inspiration, and design a floral concept that captures your personal wedding style, colour palette and bloom vibe, it's something we are exceptionally good at, and our reputation speaks for itself!

Not only are we awarded floral designers, but we have the knowledge and know how to guide you confidently and calmly through the wedding floral maze!

Our weddings are consistently featured in Australian bridal magazines with past couples featured in Vogue and Harper's Bazaar, as well as features on on-line wedding blogs including Style Me Pretty, Nouba, Hello May, The Brides Tree and Polka Dot Bride. Passionate advocates for same-sex weddings, we are also proud to be a featured member on 'Theodore Magazine' Australia's finest pro-equality wedding directory and journal.

Mondo Floral Designs has been around for some time, 15 plus years here on the Sunshine Coast and prior to that Terrienne owned floral studios in Brisbane, and so with over many years of experience, your wedding floral designs could not be in better hands. We take you on the journey of bloom design with passion, creativity and originality.

PRICING

Our process is to provide our clients with information and further details based on your floral inspiration, we start the process with a personal connection by phone, chat about the next steps and then provide options for a visual concept and pricing for your specific needs. When possible, we love to meet with clients it really is the most incredible opportunity to come into our wedding studio and be inspired, and it really lets us connect personally with your vision. We do however understand that a personal meeting may not always be possible, and many of our client's live interstate and sometimes overseas so we can certainly provide you with a proposal based on some specific information we will get you to send us. We have a wonderful digital briefing form that will gather all of your information and send it directly to us in one swift SUBMIT!

We completely understand that everyone wants some idea of pricing for their wedding day, and we are super aware that creating a budget is important! So, while we require some specific information to do that accurately we can start the process by giving you a little heads up on what you may need to aim for to create your floral dream the following pages will help you with budget, planning and details.

QUESTIONS ON COSTS

We understand that everyone has questions about costs, and we are here to help and assist with details to arm you with the right information professionally and accurately.

Sometimes costs will differ from one supplier to another, and in many instances the experience and skill level of your designer will affect the final costs, new designers typically charge less for their work, mainly as they are inexperienced and are also trying to create a portfolio, and while this may seem attractive it is very risky!

Experienced designers know how to design, how to source perfect and boutique style product, detect and troubleshoot quality issues, care for flowers and most importantly fully service your event! Here at Mondo, we don't compromise on anything, especially the quality and design of your wedding flowers! The following pricing information is subject to your final design components, content, size, varieties of flowers chosen, and final design vision will depict the end cost of each floral design.

We don't provide packages at Mondo Floral Designs, surely you don't want to pick from A,B,C or D! We create a personalised floral quote for the exact needs of your day. This information document does provide a broad pricing bracket for some of the main elements required for wedding flowers, however final pricing will need to be refined for your personal requirements. We encourage you to connect in personally to chat about the next steps and gather further information.

We do have minimum spends in place for our wedding concepts, and that varies depending on your date, we can provide you with additional information based on the date and month of your wedding.

BRIDAL BOUQUETS
