

"It was so nice to have time alone while we had the location photos taken. Being able to see our guests enjoy the garden party while we were being photographed was something we will always remember" Louise recalls.

DETAIL

PROPOSAL Brett proposed on a winter's night while the couple were house sitting. *"Two weeks before, Brett had secretly asked my mother and my aunty for my hand in marriage – it was so romantic and old fashioned. He got down on one knee and produced an amazing ring which he had designed and made just for me – it was perfect"*, Louise explained.

CEREMONY Louise and Brett were married under a magnificent oak tree on the grounds of MALENY MANOR. Louise's father passed away when she was eight, so the ceremony was extremely emotional. *"I wore a locket around my neck that had a photo of my father and mother in it. My younger brother Robbie walked me down the aisle which was very special"*, Louise recalls.

RECEPTION The couple's reception was decorated with vintage crochet tablecloths and an abundance of candles and flowers. When dessert was served Louise organised a surprise for her groom – an icecream cake just for him with the words *'WITH LOVE FROM YOUR WIFE'*.
