OUR DESIGN STUDIO

The team at Mondo Floral Designs are dedicated to creating a floral concept that reflects the individual vision for your wedding day. Terrienne heads our design team, and by her side is her experienced and talented design crew who all possess a passion for weddings and a real skill in interpreting your wedding style, with so much experience and so much amazing work under their designer belts, creating a floral concept based on your vision is our very obsession, and the team at Mondo are fanatical about pulling together luscious floral concepts and providing you with uber beautiful blooms!

Every bride has their own style, and we love to help you indulge in breathtaking blooms, that's one of the most exciting parts of our job, meeting with clients, hearing your stories, finding out what inspires you. We like to think of ourselves as floralicious advocates for your wedding day.

We guide you, advise you, share our knowledge and experience with you, immerse ourselves in your inspiration, add some of our lovely ideas and suggestions and set forth to create floral perfection, it's something we are exceptionally good at, and our reputation speaks for itself!

Not only are we awarded floral designers, but we have the knowledge and know how to guide you confidently and calmly through the wedding floral maze!

Our weddings are consistently featured in Australian bridal magazines, we also feature heavily on gorgeous bridal blogs such as Style Me Pretty, Polka Dot Bride, Sunshine Coast Brides, Nouba and Magnolia Rouge.

Mondo Floral Designs has been around for some time, 12 years here on the Sunshine Coast and prior to that Terrienne owned floral studios in Brisbane, and so with over many years of experience, your wedding floral designs could not be in better hands. Coupled with passion and creativity we boast an unrivalled enthusiasm to bring your floral vision to life.

“we are creators of uniquely designed wedding flowers”

PRICING

Like most categories of suppliers, for your special day, there will be a range of providers to consider, some good, some not so good...some experienced, some not so experienced.... a wedding happens hopefully only once in your lifetime, it needs to be perfect, and you need confident and capable wedding professionals to help you through the journey, and you have to choose the very best from the rest!

HOW TO GET A QUOTE

Our process is to provide our clients with a unique and individual quotation that is based on your floral inspiration, it's a gorgeous document/quote created especially for you!!

When possible we love to meet with clients it really is the most incredible opportunity to come into our wedding studio and be inspired, and it really lets us connect personally with your vision. So we strongly suggest if this is possible please call us to book a time to meet with Terrienne.

We do however understand that this may not always be possible, and many of our clients live interstate and sometimes overseas so we can certainly provide you with a proposal based on some specific information we will get you to send us.

We also understand that everyone wants some idea of pricing for their wedding day...my goodness when you get married the costs can add up, and we are super aware that creating a budget is really important! So, while we require some specific information to do that accurately we can start the process by giving you a little heads up on what you may need to aim for to create your floral dream!

QUESTIONS ON COSTS

One of the questions we get asked is why quotes may differ, well there are very valid reasons why one quote may be higher than another. We have summarised below what may make quotes differ in price.

Flower quality, like anything you buy there are levels of quality, wedding flowers need to be picture PERFECT! and that's what you get here at Mondo...
PERFECTION.

The experience and skill level of your designer will affect the final costs, new designers typically charge less for their work, mainly as they are inexperienced and are also trying to create a portfolio, and while this may seem attractive it is very very risky! Experienced designers know how to design, how to source perfect and boutique style product, detect and troubleshoot quality issues, care for flowers and most importantly fully service your event!

As is the case with everything in the consumer world, you do get what you pay for, and here at Mondo, we don't compromise on anything, especially the quality and design of your wedding flowers!

The following pricing information is subject to your final design components, content, size, varieties of flowers chosen and final design style depict the end cost of each floral design. We don't provide packages at Mondo Floral Designs, surely you don't want to pick from A,B,C or D!

This information document does provide a broad pricing bracket for some of the main elements required for wedding flowers, however final pricing will need to be refined for your personal requirements.

We encourage personal appointments in our studio or if that is not achievable we can provide you with further emailed information to assist in your process to provide us with required details to then send you accurate pricing.

Please note unless you are having an intimate elopement or you are involved in one of our packaged venue agreements for example a Maleny Manor package, we do have a \$1000 minimum spend.

RECEPTION FLORAL DESIGNS

Here at Mondo Floral Designs we have a large array of vessels and vases, timber boxes, brass and crystal collectible vases as well as glamorous style floral props for your inspiration, we provide these elements for your day to use as part of your concept, and we have plenty of different vase options to enable us to create gorgeous floral designs for your reception. Choices for your reception concept range from fully styled floral marquees to stunning table designs, hanging structures, floral garlands, installations, the selections are endless!

Every wedding is different; and the reception designs present the opportunity to really reflect your personality, it's an opportunity to bring on some style! And celebration and fun can be wonderfully translated through floral designs. Your wedding day could be the only opportunity to surround yourself with gorgeous flowers, so we love working with brides to create a floral vision that is really you!

As you may imagine there are many variables that need to be considered before providing you with costs, mainly the size of vases and vessels do really impact pricing, a larger style vase will need more flowers than a smaller vase option, but we have taken the opportunity to share with you some of our favourite designs, and look forward to hearing from you if you would like some specific information. While we can't list everything, and we are always adding to our gorgeous collection, here are some of our much loved and popular favourites!

Costs below are inclusive of the use of our gorgeous vases and include the flowers also.

HANGING INSTALLATIONS AND FLOWER FEATURES

Hanging Structures and Floral Installations will definitely provide you with a little bit of floral theatre and most certainly some WOW... and oh how we love to hang and suspend! As you may imagine there are many variables that need to be considered before providing you with costs for these structures, but we have taken the opportunity to share with you some of our favourite designs, and look forward to hearing from you if you would like some specific information. There are a few elements that do impact the end cost that we do need to know.

WEDDING CAKES

We love adding that touch of floral to the sweet part of your day.

Cake flowers are available in many design options we love to hear about the details of your cake and then provide you with options that suit your style and vision for your day. A little more information is required regarding the size of your cake before we can provide accurate costs. We can place the cake flowers and in most cases cake designers prefer us to do this, and we can work closely with your cake designer to achieve the end result!
